

“ITfon” International Student Innovation Project Competition

Committee on IT and Communications of Saint-Petersburg in cooperation with **Consulate General of the United States in Saint-Petersburg** and **Apple Inc** initiate **“ITfon” International Student Innovation Project Competition** within the framework of IV Saint-Petersburg International Innovation Forum.

The Competition encourages participants to create and send an innovation mobile application project (including its description as a text file and its presentation) to org@itfon.info **until September, 20**. “ITfon” competition covers almost all the spheres therefore the project may relate to any aspect of people activities.

The Competition welcomes graduates of American international exchange programs as well as students of Saint-Petersburg Universities.

Top three winners of the Competition will be awarded with **prizes from Apple Inc** and publication in “IT Manager” journal, one of the leading edition in the field of Information and Communication Technologies. Nominees that win in additional categories will also receive special souvenirs from partner companies of “ITfon” Competition.

For more information please visit the official site of the Competition www.itfon.info.
